CHERRY PECTORAL

For the Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

AND FOR THE RELIEF OF PATIENTS IN ADVANCED STAGES OF CONSUMPTION.

Many years of trial and constant use have won for it an appreciation and not only by far exceeding the most sanguine expectations of its friends. Nothing but its full trial can satisfy the unmistakable benefit conferred on thousands of sufferers could originate and maintain the reputation it enjoys. While many inferior remedies that spring up around the community have failed and been discarded, it has gained friends by every trial conferred benefits on the afflicted, they can not nor forget and produced cures too numerous and too remarkable to be forgotten.

While it is a fraud upon the public to pretend that any one medicine will infallibly cure—still there is abundant proof that the Cherry Pectoral does not only a general thing but almost invariably cure the maladies for which it is employed.

As time makes these facts wider and better known this medicine has gradually become the best resource of the afflicted, from the long cabin of the American peasant to the palaces of European kings. Throughout this entire country in every city and village almost every hamlet it contains *Cherry Pectoral* is known as the best remedy extant for diseases of the Throat and Lungs—and in many foreign countries it is coming to be extensively used by their most intelligent Physicians. In Great Britain, France and Germany where the medical sciences have reached their highest perfection *Cherry Pectoral* is introduced and in constant use in the Armies, Hospitals, Alms Houses, Public Institutions, and in daily practice as the surest remedy the attending physicians can employ for the more dangerous affections of the Lungs. Also in milder cases and for children, it is pleasant and effectual. In fact in all of the most flattering testimonials we possess have been from persons who have found it efficacious in cases particularly suited to each.

The Cherry Pectoral is manufactured by a practical Chemist and every ounce of it under his own eye with a variable and unerring cure. It is sealed and protected by law from counterfeits, consequently can be relied on as genuine without adulteration.

We have endeavored here to furnish the community with a remedy of such tremendous superiority and worth as should exempt itself to their confidence—a remedy that can safely, speedily and effectually which it has by repeated and complicated trials proved itself to be, and we trust by great care in preparing it with them can secure by uniform strength to afford Physicians a new agent on which they can rely for the best results and the afflicted with a remedy that will do for them all that medicine can do

FOR THE GREAT REMEDY FOR

Coughs, Colds and Consumptions.

The VEGETABLE PULMONARY BALSAM FOR CONSUMPTIVES

The *VEGETABLE PULMONARY BALSAM* has justly won its high celebrity during the [illegible] years it has been before the public, and more and more extended popularity than any other similar compound in the world. It is entirely free from Opium or anything else that can be injurious to the most delicate child and is at the same time so efficacious in its effects upon man or beast. To those who are acquainted with the above valuable medicine no recommendation is necessary to recommend it, but we consider it our duty to say to those who have not used it, that we have the knowledge of many of our neighbors and friends who have used it in their families for years, and have given it the most unqualified recommendation, and we consider it the best remedy for Coughs, Colds, Influenza, Spitting of Blood and all Lung Complaints, Chronic Diarrhœa and Dysentery in all of which cases it will be used internally. The effects of its external application in cases of Rheumatism, Spinal Diseases, Sprains, Chapped Hands, Bruises, Burns, and all descriptions of wounds are magical. Persons troubled with Cramp in the Stomach Side or Bowels, Sore Throat, Piles, &c by a few drops used internal and external application will find Anodyne do not fail of certain and speedy cure. The proprietors produce volumes of testimonials in its favor but we refer to let it carry its own recommendations as it has done for forty years past. We ask no more to use it after an unsatisfactory trial in any complaint it unites several of the most potent curing specifics known to the Materia Medica—The above is one of the oldest and most successful preparations of medicine for more than twenty years

This is to certify that I have been troubled for a number of years with a distressing cough and pain in my lungs attended by a bad cold which was in all its appearances a settled consumption. My doctor's bills and I got to be quite a burden to my pocket. After some time I was told by a friend that I would try the use of the Vegetable Pulmonary Balsam. I did so and after using two bottles I found myself entirely relieved and I have since been able to follow my daily business and for the last twenty years have not been subject to severe attacks of my former complaint and ever find any person troubled with a bad cold or cough that I can recommend with so much confidence as the Vegetable Pulmonary Balsam. Self Acquired Fame!

DR JOHNSON'S

AMERICAN ANODYNE LINIMENT.

For Internal and External Use

THIS wonderful blood cleanser, notwithstanding it has ever had the greatest of newspaper publicity has yet acquired a fame and more extended popularity than any other similar compound in the world. To those unacquainted with the wonderful medicine only a few words are necessary to recommend it, but we consider it our duty to say to those who have not used it, that we have the knowledge of many of our neighbors and friends who have used it in their families for years, and have given it the most unqualified recommendation, and we consider it the best remedy for Coughs, Colds, Influenza, Spitting of Blood and all Lung Complaints, Chronic Diarrhœa and Dysentery in all of which cases it will be used internally. Causes and Consequences.

The great political tornado which has passed over the country may well merit the careful attention of the people both as to its causes and consequences. Before the National Loco Convention the great men in that party were brought forward and severally slain until at length every opposing element whether of men or opinions, was melted down into acquiescence in the nomination of Gen. Pierce, he being known and understood to be fully disposed to carry out the plans and purposes of the Southern politicians.

Before the National Whig Convention there were three prominent candidates. Instead of killing off all three of them, one, Gen. Scott, was selected to the great disappointment of the friends of the others, and for the purpose of harmony, the friends of the other candidates were allowed to frame the issues and to shape the campaign. This, while it cooled off many of the warm friends of Gen. Scott on the one hand, did not secure the active co-operation and zealous labors of the friends of the other candidates.

The result has proved that the extremists of the North and the South—the Fillibusters—Wild Cats and Barnburners—all sections and stripes of the opposition have united in a common vote. The doctrine of intervention in one direction, Free Trade in another, Rum in another and money in others, have all united with disaffected whigs of every caste, whether from general or local causes, and all have gone in a body for Pierce. His party to-day is the most incongruous that was ever combined in this country.

Gen. Pierce on assuming the government cannot expect to satisfy the various sections of this party, nor will he attempt it. He will lead directly along in the course and in accordance with the wishes of the Southern Fillibusters.—He will be eminently Southern in his views and measures. The leading Barnburners must become Wild Cats or go plump to the wall. His administration will be led on and fed by the excitement of aggression.

In the disposal of all domestic questions and the distribution of the spoils, special regard will be had to Southern wishes and influences, so too in all matters of foreign intercourse, and especially so, regarding the acquisition of Cuba.

Such an administration cannot meet the approval of the conservative portion of the American people. It cannot maintain the harmony of its own party. It cannot prevent great differences of opinion and interest. It cannot fail to multiply causes of complaint in the party.

It is clear then that those who have voted for Gen. Scott compose a reliable national party, occupying solid and good fighting ground, equally removed from either extreme of sectionalism. They are devoted to the welfare and progress of the country, and the honor and prosperity of the government. They are in a position to exert a wide influence, and to form the nucleus around which the people shall gladly rally as they see the plans, measures and tendencies of the new administration unfold.

It is of great importance to the country that this ground should be occupied, instead of flying off in a tangent to either extreme. The two extremes we know cannot harmonize, either extreme would be fatal; so the calm and golden mean will be the centre of right, and justice, honor and prosperity to which all good influences and right aims will tend.

☞ There is much comment recently on account of the bill of indictment found against John R. French, Esq., editor of the Biddeford Journal, for publishing the statement that the Jail at Alfred, was not kept quite so sweet and neat as would be agreeable to most people. Whether the charge were true or false, it would have been much better for the Justice to have profited by the suggestions and put everything in the best order and vindicated his conduct by an appeal to the public. If the editor found sundry ancient scents, which disturbed his olfactories, it was right for him to speak of them, and probably few Jails can be found with the fragrance of roses.

It was a poor return to make to a nose that discovered offensive matter, to snub and tweak it with the tongs of the law; this is an offence that smells to Heaven. The result of the prosecution will probably be equal to a bottle of French *Cologne* to the jail.

☞ There is to be a public meeting at the City Hall, on Saturday evening, at the request of petitioners, to see what action shall be taken regarding the fact that the city authorities have laid out the public highway on the banks of the stream, from Drummond's Mills to the dwelling house of Lewis Hancock, at Dudley's Mills. The road has been laid out and accepted and workmen are engaged in its construction. There are persons in favor of it and there are those opposed to it, as is often the case in the laying out and making roads. The true object of the meeting should be to bring out all the facts bearing upon the subject, and when this is done and fairly done, the people at large will be ready to pass a fair judgment upon the action of the City Council in the laying out and the construction of this road.

☞ A fearful railroad accident occurred on the Railroad between New-Haven and Springfield, on Saturday last. On passing over the Canal bridge at Windsor Locks, one of the rails broke, and the last car of the train was precipitated into the canal. The car contained 18 passengers, two of whom—brothers, named Billington, who had just returned from California, and were on their way home—were drowned. Some others were seriously though not fatally injured.

☞ The Wheeling *Times* states that during the prevalence of the cholera in that city, meat tainted, and would not keep more than twenty-four hours.

☞ The death of Ezekiel Hersy Derby, a venerable and much respected citizen of Salem, is announced. His age was four score years.

☞ The House of Representatives of Rhode Island has rejected, by a vote of 49 to 14, a bill to repeal the liquor law of the last session.

Benefit for Mrs. Hamblen, This Evening.

The inclemency of the weather and the great excitement of Monday evening, prevented hundreds of people from attending the amusements at City Hall for Mrs. English's Benefit, and we are gratified to hear that she will try her fortune again this evening, when a good bills offered, consisting of William Tell, and other plays, and in the course of the evening a Gold Ring will be given to the author of the best original Conundrum.

☞ The Brattleboro' Eagle learns that upwards of 10,000 sheep have been sold and driven from the town of Shoreham, Vt., at prices ranging from fifty cents to three dollars and a half. This unusual sale of stock is owing to the scarcity of feed.

☞ We learn that Rev. Mr. Battles will return from his journey in season to preach to his society, on the next Sabbath afternoon.

☞ The cholera is prevailing with much severity in the island of New Providence, and the 7th ult., was observed as a day of fasting and prayer in consequence.

☞ There were fifty-one deaths from yellow fever and eleven from cholera, in New Orleans the past week.

☞ The weather cleared off yesterday after a very long dreary storm.

☞ Thanks to Carr & Co.'s Express for papers received yesterday in advance of the mail.

☞ At the close of a course of instruction in Elocution given in the East Maine Conference Seminary by Mr. B F Rowe, the class unanimously passed the following resolutions, and ordered their publication as an expression of their estimate of Mr. Rowe, and as services:

Resolved, That we have been highly gratified with the instruction in Elocution which we have received from Mr. B F Rowe, and we hereby express to him our entire satisfaction with his course of instruction.

Resolved, That we believe Mr. Rowe to be well qualified to teach the principles of Elocution, and we consider his system admirably adapted to make agreeable and impressive readers and speakers.

We therefore commend him both as a teacher of that important art, and as a christian gentleman, to the favor of the public.

From Mexico.

NEW ORLEANS, Nov. 1.

An arrival at this port to-day brings later advices from the city of Mexico. The Picayune learns that on the 7th October the proposals for the right of way across the Isthmus of Tehuantepec were opened by commissioners appointed for that purpose. They were not expected, it having been concluded to postpone the time of the decision of the commissioners for a period of 100 days, and in the meantime received additional proposals. On this being known, the original bidders entered their protest, which was referred to the government. The idea has been started that the company to whom the grant is finally awarded shall settle all reclamations with the United States.

There have been some further disturbances at Oaxaca and elsewhere.

The Cholera was raging at Acapulco, and the troops had sought refuge in the towns.—There is no further information relative to the government *coup d'etat*.

FROM CHILI. The Isthmus steamers bring advices from Valparaiso to the 26th September. An insurrection occurred at Santiago, Sep. 11, and one of the barracks was taken possession of by an artillery company. The insurrection was confined to this one company, and was immediately suppressed. The leader, Manuel Scott and two soldiers, Cantardo and Vidal, were executed in the open yard at the barracks.

NEW YORK, Nov. 2.

Rev. Charles Hartwell and family sail to-morrow for China as missionaries. They will be stationed at Hong Kong.

WASHINGTON, Nov. 2.

Postmaster General Hubbard, has made a contract for the supply of stamped envelopes under the new postal law, and gives one-third less than was paid by his predecessors for plain envelopes.

CHARLESTON, Nov. 2.

The South Carolina Legislature assembled at Columbia yesterday, and chose electors favorable to Pierce and King.

Over *thirty tons* of eggs were received at Sandusky, Ohio, during two days of last week by railroad. They were all from the town of Marshfield!

Support your own mechanics, and they will you. Support your own merchants, and they will support you. Support the home press, and it will support you.

The Press.

Mr. Winthrop, in his late oration before the Alumni of Harvard College, thus comments on the Press of America:

"And then, the press of America—the periodical press, the pamphlet press, the light literature press, and above all the newspaper press of America—that tremendous engine, which throws a fresh broadside, at morning and noon day, beneath almost every roof in the Republic, and whose competitors so often betray it into fatal compliances with the prejudices, the passions, and even profligacy of its supporters. Who can estimate the influence of such an engine upon our social and moral condition? Who can calculate the pernicious effect upon the community of a single corrupt, licentious newspaper, damning slanders like a mint, changing phases like the moon, with 365 opinions a year," upon every subject which it treats, spoiling its daily and nightly potions with every variety of obscene and sensual stimulant, controlled by no sense of responsibility, finding its easy way to the knowledge and perusal of the young, and ignorant, and inexperienced, and pandering to their diseased tastes and depraved appetites. And who can calculate, on the other hand, the influence which might be produced—nay, let me say is produced—for I have in my mind, thank Heaven, more than one example, by such an engine in the hands of upright, intelligent, independent and conscientious men, espousing and advocating neither ultraisms nor citrisms, neither a wild fanatism nor bigoted conservatism; with the fear of God before their eyes, with the love of truth in their hearts, and by whom the advancement of knowledge, of morality, of virtue, of right and of righteousness is not held subordinate to the popularity of the hour or to the state of the subscription list.

The present accomplished and eloquent Prime Minister of England, who has been personally known and esteemed by so many of us in this country as well as in his own, has recently declared, somewhat emphatically, on the floor of the Parliament, that, as in those days the English press aspires to share the influence of statesmen, so also it must share the responsibilities of statesmen." It would be more true, in this country, I fear, to speak of the statesmen aspiring to share the influence of the press." But, however, it may be, as to the point of relative superiority, there can be little question as to that of comparative responsibility. Certainly, if responsibility is to be measured by power, the responsibility of the press is greater than that of any statesman under the sun, however exalted he may be. Who has forgotten that splendid exclamation of another English Minister and orator, in 1810, when he challenged and defied all the authorities of the realm to contend against the power of the press? "Give them," said he, "a corrupt House of Lords, give them a venal House of Commons, give them a tyrannical Prince, give them a truckling Court: and let me have an unfettered press—I will defy them to encroach an hair's breadth upon the liberties of England."

"Yes, an unfettered press is a match and an overmatch for almost anything human. Neither tyranny nor freedom can stand against it. Neither corruption nor virtue can survive its systematic and persevering assults. It may be rendered all but omnipotent for evil, it may be rendered almost omnipotent for good, according to the ends to which it is directed and the influences by which it is controlled. And the only reliable, earthly influence to which we can look for safety is a sense of responsibility, a moral and religious responsibility, on the part of its controlers.

Vermont, Scott.

New York, Pierce.

Pennsylvania Pierce by 40,000 majority.

Michigan—Detroit, Pierce's majority 500.

Ohio—Toledo and Cuyahoga, Hackey, majorities for Pierce.

Pierce carried Maryland and Delaware by large majorities.

Baltimore 4000 majority for Pierce.

New York City 800 majority for Pierce.

Albany 1700 majority for Pierce.

Returns from 76 towns in Massachusetts, show a gain for Pierce, of nearly eleven thousand votes over Taylor's majority of 25,000. The city of Charlestown gives Pierce 600 plurality over Taylor in 1848, which is nearly 600. Returns from the Western part of the State are so decisive that it is thought Scott will have the State by 6000.

Gen. Pierce is now at Concord, at the residence of John E Thayer.

The returns from Vermont are favorable for a considerable plurality for Scott.

The majority for Pierce in New Hampshire is large.

Wilmington, Del., gives Pierce.

Maryland goes for Pierce largely.

Connecticut 3000 for Pierce.

Brooklyn and Williamsburgh, N. Y., Pierce majorities.

Rhode Island reported Pierce majority over 600 hundred.

Virginia gone for Pierce.

The most extraordinary discovery in the world is a Great Arabian Remedy for Man and Beast.

H. G. FARRELL'S
CELEBRATED ARABIAN LINIMENT.

The beautiful and fertile region skirting the desert of Arabia, abounds with rare plants and odorous woods, whence are procured those aromatic gums and balms of which this Liniment is composed, and by whose assimilating, unctuous and penetrating properties it is, when applied, diffused through the whole nervous system, allaying the most intense pain in a few minutes. Try it—you will be convinced that no preparation possessed so high a degree, the perfect anodyne qualities. Its action is prompt and effective. It penetrates the flesh to the bone, relaxes contracted cords, restoring use to the limbs paralyzed for years, and where the flesh has wasted away, leaving nothing but skin and bone, excites a healthy action, causing flesh to grow out and fill up the shrivelled parts. It restores the synovial fluid or joint waters and this is the reason why it has been so successful in diseases of the joints. In affections of the Spine, Liver, Lungs and Kidneys, the great remedy stands before any other ever discovered. For agues colds or enlargement of the spleen, it is a spec fic. For any kind of Internal Inflammation, you will find it gives great relief. If like no equal in the g reid for Rheumatism—Also, cramp, swelling, numbness weak joints, Spine and Chest, pains, wounds, chilblains, burns, sore throat, bites of insects and reptiles, salt rheum, tetters, corns, mumps, and indeed nearly all diseases which require an external application and many others, are speedily benefited by it. It is used externally with great success in palsy, in swelled neck, Scrofula or King's Evil, Liver Complaint, nervous diseases, &c. Internally or Cattle, it is an effectual aid in diseases of man. Will cure any case of Poisoning for existence, also, Spavin, Splint, Ringbone, Big-head, Fistula, Farcy, Foll Evil, Windgalls, Strains, Bruises, &c.

CAUTION.—BEWARE OF COUNTERFEITS.

The public are cautioned against another counterfeit, which has lately made its appearance, called W. H. Farrell's Arabian Liniment, the most dangerous of all the counterfeits, because his having the name of Farrell, many will buy it in good faith, without the knowledge that a counterfeit exists, and they will perhaps only discover their error when the spurious article has wrought its evil effects.

The genuine article is manufactured only by H. G. Farrell, sole inventor and proprietor, and wholesale druggist, No. 17 Main Street, Peoria, Illinois, to whom all applications for Agencies must be addressed. Be sure you get it from the hands of H. G. before Farrell's name—H. G. FARRELL'S—and his signature on the wrapper.

Sold by INGRAHAM & FULLER, wholesale and retail, Bangor. Also by R. F. Kissell, Dilltown; French & Hamilton, Dexter. Geo. Parker, Ellsworth. P. O. Palmer, Bucksport. And by regularly authorized agents throughout the United States.

☞ Price 25 and 50 cents, and $1 per bottle.

AGENTS WANTED in every town, village and hamlet in the United States, in which one is not already established. Address H. G. Farrell as above, accompanied with good reference as to character, responsibility, &c. sept23 d&w

"I DIGEST." Such is the true meaning of the word (PEPSIN,) or of the two Greek words from which it is derived. This is the significant and appropriate title of the TRUE DIGESTIVE FLUID, or GASTRIC JUICE, prepared by Dr. J. S. HOUGHTON, of Philadelphia, from the Fourth Stomach of the Ox, for the cure of indigestion and Dyspepsia. It is Nature's own remedy for an unhealthy Stomach. No sort of man can equal its curative powers. It renders GOOD EATING perfectly consistent with HEALTH. See the figure of the Ox, in another part of this paper.

OFFICE OF THE
Association for the Exhibition of the Industry of all Nations.

NEW-YORK, July 12th, 1852.

THE ASSOCIATION FOR THE EXHIBITION OF THE INDUSTRY OF ALL NATIONS give notice that the Exhibition will be opened, in the city of New York, on the 2d day of May, 1853. The Municipal Authorities having granted to them the use of Reservoir Square, and they are proceeding to erect thereon a building worthy of the purpose to which it is to be devoted.

The Association desires to make the Exhibition, in fact as well as in name, a representation from other countries of all the Raw Materials and Products, Manufactures and Fine Arts. To this end it has opened communications with Chambers of Commerce, Societies of Arts, and Governments in Europe, and with Consuls and Commercial Agents of the Austrian Empire at this port. The Count de Leon, of London, whose skill, experience and character for the most satisfactory security, has been secured to superintend the Machinery Department, and Mr. Buchler is the author of the Catalogue of Exhibitors, which is now in course of publication, in all countries other than the United States, and as such has received its credentials. All communications from Contributors abroad are to be addressed to him at "The Office of the Association for the Exhibition of the Industry of all nations in New York, New-York, London." He will state to them the terms on which space will be given and authority conferred, and will also explain the great inducements offered by this Enterprise to Foreign Exhibitors. This Association will correspond with persons in the United States, the Canadas and the Provinces, the West Indies, and this Continent generally, desirous to contribute to this Exhibition. All communications, must be addressed to "THE SECRETARY OF THE ASSOCIATION FOR THE EXHIBITION OF THE INDUSTRY OF ALL NATIONS, NEW-YORK." The Association is now ready to receive applications, and it is desirous that they be rendered immediately. Due notice will be given when the Building will be ready for the reception of articles. Application for the admission of articles to the Exhibition must represent intelligibly their character and purpose, and must also state distinctly the number of Square Feet, whether of Wall, Floor or counter-space, required. Machinery will be exhibited in motion—the Motive Power to be furnished by the Association—and application for the admission of Machinery, to be so exhibited, must set forth the amount of Motive Power required. The Association deems it proper to announce that Paintings in Frames will be exhibited. As, notwithstanding the magnificent proportions of the proposed Building, there is not necessarily, be a limitation of space, the Association reserves the right to modify or reject applications, but, in so doing, will be governed by strict impartiality, looking only to the general objects of the Enterprise. The Association also reserves the right of determining the length of time, not to exceed in any case one season, during which objects shall, severally, form part of the exhibition. Exhibitors are requested to designate an Agent, to whom their contributions shall be delivered, when withdrawn from the exhibition. Prizes for excellence in the various departments of the Exhibition, will be awarded under the Direction of Capable and Eminent Persons.—Whatever is requisite to the Exhibition, will be the co-operation of the Productive Intellect and Industry of their own and other countries.

NEW MUSIC BOOK.
THE HARPSICHORD:

OR, UNION COLLECTION OF SACRED MUSIC,
BY LEONARD MARSHALL AND HENRY N. STONE,
TEACHERS OF MUSIC, BOSTON.

THIS work is the *most complete* collection of Sacred Music ever published, containing about five hundred tunes in upwards of *eighty* different metres, besides Chants, and more than *sixty Anthems* and set pieces, adapted to every occasion of divine worship and public interest, such as Dedications, Installations, Ordinations, Baptisms, Funerals, Thanksgiving and Fast Days, Opening and Close of Service, Patriotic and Temperance Celebrations, &c., the whole forming a book of three hundred and eighty four pages, of more than usual size, and in large and elegant type. All its features have been perfected with the greatest care, and under the immediate supervision of the editors. But the number of pieces is not the only recommendation of this work;—reliance is placed mainly in the fact, that the music will bear examination, each tune having been thoroughly digested and made not to fill up the book, but to be sung.

Most of the music in this book is new to the American public; and selections are made from Handel, Haydn, Mozart, Noukomm, Rossini, Russell and others.

Also, FIRESIDE HARMONY; a collection of Glees and part songs, either of original or adapted from the German, and never before published in this country—By Wm Mason.

Professor Russell's Reading Books, which have been introduced into more than 500 towns.

The WHITE SLAVE, a book of thrilling interest, on Slavery, with eight engravings. Agents wanted to sell this last named book, who can make good wages.

Orders solicited by TAPPAN & WHITEMORE 114 Washington street, Boston, for the above.

For sale by DUREN, and BUGBEE.

To the American People.

ASTONISHING HOME PRODUCTION
FOR THE CURE OF
Coughs, Colds, Asthma and Consumption.

HARDY'S Great American Remedy for Coughs, Colds, Asthma and Consumption, has now proved itself, beyond a question, Yankee will submit the test to any regular, scientific physician, to whom I may make known the ingredients of which it is composed, far before any other article, which is advertised as a ready prepared medicine, for the complaints above named.

Do not imagine that because it has not some unintelligible, foreign name, or does not purport to have arrived into existence beyond the Atlantic or the Pacific, (perchance the juice of some wonderful tree or plant tapped and extracted by the hands of Hygeia herself,) that it can have little merit, but, on the contrary, be proud to try a home product on which emanated from the Laboratory of one of your own (State of Maine) Physicians, of extensive learning, long practice, and deep in the knowledge of medicine and his profession. Thousands of dozens of bottles of this medicine have been sold within two or three years, indeed its gigantic preponderance in the scale of reputation, demand, and actual use, makes it certain that it has no equal. Try it, Americans, and upon its own intrinsic merits let it stand or fall. It should be kept by every family.

Price 37½ cents per bottle, at HARDY'S, No 3 Harlow's Block, and at most of the Druggists in Maine.

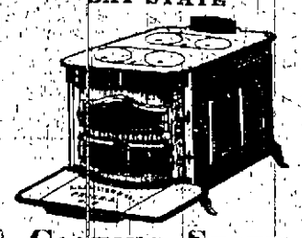
THE BEST STOVE in the Market!

EXPERIENCE has proved satisfactorily, and unanimously, that the

BAY STATE



COOKING STOVE,

For which the subscriber is Sole Agent, is the very best Cooking Stove ever invented, surpassing in its cooking apparatus—boiling, broiling, baking, &c., &c.—all competitors as well as in smoothness and thickness of Castings, durability and economy. The fact that more than 25 000 are sold per annum, is of itself proof positive of its General excellence.

Over 300 have been in use in this city and vicinity for upwards of three years without requiring repairs, for which purpose the undersigned has castings constantly on hand.

One great advantage possessed by the Bay State over all other Stoves, of whatever description, to which advantage public attention is particularly invited, and which enables it to bake equal to the very best brick oven is the improved and durable and economical character of its fire plate, being of great thickness and composed wholly of due casting, requiring less fuel than other Stoves, and baking with great evenness and expedition—This advantage will be appreciated by all intelligent housekeepers and cooks.

The Bay State is of six sizes, varying from $15 to $60.

THE WARRANT!

TAKE NOTICE.

Stoves not proving satisfactory after a fair trial of 30 days, the price paid and expense of returning will be refunded

Also on hand a full assortment of Stoves, Furnaces and Ranges, together with Registers, Ventilators, and Copper, Steel, Sheet Iron and Tin Ware constantly on hand and for sale at reduced prices.

LIKEWISE

Penrhyn Marble Mantels!

An exceedingly elegant and cheap article, and one which retains its beauty and polish even in opposition to coal, gas, smoke and acids

EGYPTIAN MARBLE

Is also kept on hand, which is recommended to the attention of architects, builders and others.

Valuable Real Estate

AT BLUEHILL, MAINE.

For sale, by order of Administrator, at Public Auction, on the premises, on TUESDAY, Nov. 9th, at 10 o'clock, A. M.,

All the right, title, and interest, to the valuable Estate formerly belonging to JOHN CHEEVER, late of said place, held by virtue of mortgage, for $ 936 62 cents, with interest, amounting to $2045 96, and possession under it. Said estate is situated on Bluehill Bay, about one mile from the steamboat landing, and two from the village, consisting of a double two story Dwelling House, with five rooms on a floor, a Commodious Store and Store House, Fish House, and Sheds, ship yard and conveniences, wharf facilities, with about one and a half acres of land under and adjoining. The buildings have been built, but a few years and are in good condition.

This Estate is valuable as a Depot for trade, lying as it does on both sides of the main road leading to Sedgwick and Brooklin, and near the bridge now building. The Store house contains a shop fitted with shelves, counters, &c., suitable for a wholesale or retail business, and stands upon a wharf in an inner harbor with a deep smooth bottom, accessible at all stages of the tide, where vessels can lie in safety and load or unload directly to the store; in short, no place on the coast offers better advantages for conducting the fishing business in all its branches. The ship yard where several vessels have been built furnishes every facility for building purposes. For further particulars apply to H. W. HINCKLEY, Esq., at Bluehill, or the auctioneers, at No 34 Front Street Salem.

AGENCY FOR BUSINESS WITH U. S. PATENT OFFICE, WASHINGTON

No. 22 State Street, . . Boston.

IN 1849 the subscribing was appointed by the Commissioner of Patents Agent of the U S Patent Office, in accordance with the 10th Sec of Act of 3[illegible]

Having relinquished the Agency for the transmission of Models and adopted among expedients made of sending them to the Patent Office, *where by a Patent may be procured about six weeks earlier* the, continued to forward them free of xpense—to prepare Caveats, Specifications Assignments, and all the necessary Papers and Drawings for Patents; and to render advice on legal and scientific matters relating the same Patents secured a Europe and other countries.

By application at this office, inventors are saved the time and expense of journey to Washington and delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of *verbally explaining* their inventions and consulting in respect to them; *matters, in general, of parties to the performance in order to obtain correct rejections and opinions* The experience of *sixteen* years practice, and extensive collection of rare works, Decisions, &c on mechanical subjects, the Patent Laws, and practice of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford inventors the surest of procuring Patents, assistance and information which in other respects might be difficult of attainment

R H EDDY, Solicitor of Patents.

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents, R H EDDY Esq of Boston did business at the Patent Office as Solicitor for procuring Patents. There were few if any, persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill fidelity or success I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in advising inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office EDMUND BURKE,

The following certificate from Dr John C Warren of Boston, was given 15 years since, but will last forever:

Boston January 7, 1835

Having had occasion to observe that some persons afflicted with Hernia have suffered much from the want of a skilful workman in accommodating Trusses to the particularities of their cases, I have taken pains to inform myself of the competency of Mr J F Foster to supply the deficiency occasioned by the death of Mr Beath. After some months of observation of his work, I am well satisfied that Mr Foster is well acquainted with the manufacture of these instruments and ingenious in accommodating them to the variety of cases which occur. I feel called upon to recommend him to my professional brethren, and to the public as a person well fitted to apply their wants in regard to these important articles

JOHN C WARREN, M D Boston

Professor Stuart, of Andover Theological

The undersigned having occasion to employ Mr J F Foster of Boston in making and fitting a Truss for the relief of Hernia takes great pleasure in recommending him to the favorable notice of such persons as may be afflicted with the like complaint. Mr Foster's success in the manufacture and adapting them to the body, giving ease and comfort to the wearer, surpass[illegible] as far as my experience goes, [illegible] any other manufacturer of the article.

The numerous testimonials which he has received together with the recommendations of the [illegible] Surgeon Dr J C Warren, as a sufficient guaranty for all who may favor Mr F with their patronage that they will receive entire satisfaction, and he will [illegible] all reasonable demands for an [illegible] cation
